Dear DOT Planning Office,

As a 24 year resident of the state I cannot come to any other conclusion but that our current administration is making poor fiscal decisions concerning state transportation needs. Please do not make a mockery of our state government. The ridiculousness of spending money on new projects when we are told that we do not have money to maintain existing roads is glaring. The only sound transportation system for Lynn Canal is to maintain/improve ferry service.

Thank you for your time.

Sincerely,

Liz and Mike Falvey
